[Help](#) on the options is available.

## This page is not Valid HTML 4.01 Transitional!

Below are the results of attempting to parse this document with an SGML parser.

- Error** *Line 43 column 17: there is no attribute "LEFTMARGIN".*

```
<body leftmargin= "...0" topmargin="0" marginwidth="0" marginheight="0" onLoad="Move
```

You have used the attribute named above in your document, but the document type you are using does not support that attribute for this element. This error is often caused by incorrect use of the "Strict" document type with a document that uses frames (e.g. you must use the "Transitional" document type to get the "target" attribute), or by using vendor proprietary extensions such as "marginheight" (this is usually fixed by using CSS to achieve the desired effect instead).

This error may also result if the element itself is not supported in the document type you are using, as an undefined element will have no supported attributes; in this case, see the element-undefined error message for further information.

How to fix: check the spelling and case of the element and attribute, (Remember XHTML is all lower-case) and/or check that they are both allowed in the chosen document type, and/or use CSS instead of this attribute. If you received this error when using the <embed> element to incorporate flash media in a Web page, see the [FAQ item on valid flash](#).

- Error** *Line 43 column 31: there is no attribute "TOPMARGIN".*

```
<body leftmargin="0" topmargin= "...0" marginwidth="0" marginheight="0" onLoad="Move
```

- Error** *Line 43 column 47: there is no attribute "MARGINWIDTH".*

```
...margin="0" topmargin="0" marginwidth="0" marginheight="0" onLoad="MoveLayer()
```

4. **Error** Line 43 column 64: there is no attribute "MARGINHEIGHT".

```
...gin="0" marginwidth="0" marginheight="0" onLoad="MoveLayer()" onResize="MoveL
```

5. **Error** Line 43 column 98: there is no attribute "ONRESIZE".

```
...ht="0" onLoad="MoveLayer()" onResize="MoveLayer()">
```

6. **Error** Line 61 column 33: there is no attribute "BACKGROUND".

```
<td background="images/menusep2.gif"><div align="left"><img sr
```

7. **Error** Line 61 column 124: required attribute "ALT" not specified.

```
...es/menusep2.gif" width="6" height="1" ></div></td>
```

The attribute given above is required for an element that you've used, but you have omitted it. For instance, in most HTML and XHTML document types the "type" attribute is required on the "script" element and the "alt" attribute is required for the "img" element.

Typical values for `type` are `type="text/css"` for `<style>` and `type="text/javascript"` for `<script>`.

8. **Error** Line 66 column 80: required attribute "ALT" not specified.

```
...c="images/a.gif" width="5" height="5" ><a href="web-site-monitoring.asp" class
```

```

26. **Error** Line 141 column 90: **required attribute "ALT" not specified.**

```
...c="images/a.gif" width="1" height="1" ></td>
```

27. **Error** Line 146 column 124: **required attribute "ALT" not specified.**

```
...es/menusep2.gif" width="6" height="1" ></div></td>
```

28. **Error** Line 153 column 86: required attribute "ALT" not specified.

```
...c="images/a.gif" width="5" height="5" ><a href="pricing.asp#individual" class=
```

29. **Error** Line 155 column 55: required attribute "ALT" not specified.

```
<td></td>
```

30. **Error** Line 156 column 66: required attribute "ALT" not specified.

```
... <td></td>
```

31. **Error** Line 162 column 14: end tag for "TR" which is not finished.

```
</tr >
```

Most likely, You nested tags and closed them in the wrong order. For example `<p><em>...</p>` is not acceptable, as `<em>` must be closed before `<p>`. Acceptable nesting is: `<p><em>...</em></p>`

Another possibility is that you used an element which requires a child element that you did not include. Hence the parent element is "not finished", not complete. For instance, `<head>` generally requires a `<title>`, lists (`ul`, `ol`, `dl`) require list items (`li`, or `dt`, `dd`), and so on.

32. **Error** Line 166 column 124: required attribute "ALT" not specified.

```

An "id" is a unique identifier. Each time this attribute is used in a document it must have a different value. If you are using this attribute as a hook for style sheets it may be more appropriate to use classes (which group elements) than id (which are used to identify exactly one element).
